ABOUT THINKNYX

We are a team of professionals, with years of IT technology experience ranging from Software Development to Management of IT Infrastructure, Cloud, Automation, Container Management, Web and APP Development, Security and Professional Services. Our extensive experience enables our customers to have solutions exactly tailored to their needs which are stable and reliable.

Thinknyx Technologies is a recognized brand in delivering comprehensive Information Technology and Non-IT Training to diverse organizations worldwide. With over 8 years of core industry experience, we have successfully aided our customers in strategically planning and flawlessly implementing employee learning and development initiatives. Thinknyx is a global solutions provider dedicated to empowering corporations and institutions to shape a future that aligns seamlessly with their objectives.

Thinknyx is a global name in fulfilling staffing and recruitment needs across multiple industry verticals and domains. The company has a rich history of fulfilling staffing requirements across some of the leading multinational organisations globally.

FROM OUR CEO'S DESK

YOGESH RAHEJA

CEO & FOUNDER

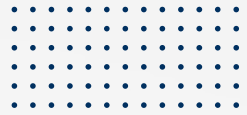

At the core of our philosophy lies a commitment to thoroughly comprehend our customers' needs and establish a foundation of trust with them. By delving into their requirements and fostering trust, we create an optimal environment for delivering outstanding customer-centric solutions. Our goal is to offer reliable solutions that clients can rely on, cultivating lasting relationships that extend far beyond a single transaction.

"You Trust, We Deliver" Our aspiration is to stand out as the foremost and favoured source for IT & Non-IT Trainings, Talent Acquisitions Services and IT Consulting for our esteemed clients.

Thinknyx®
You Trust, We Deliver!

TRAINING APPROACH & METHODOLOGY

At Thinknyx Technologies, our operational approach to Learning and Development is distinguished by an unwavering commitment to tailored excellence. Through thorough assessments, we gain insight into the unique requirements of our clients, enabling the creation of bespoke training programs aligned with the latest industry standards and technological advancements. Employing state-of-the-art technologies, hands-on labs, and seasoned instructors, we prioritize an engaging and dynamic learning experience. Our scalable platforms cater to diverse client requirements, and continual assessment and feedback mechanisms ensure the enduring relevance and effectiveness of our training. Emphasizing data security, compliance, and client engagement, we cultivate collaborative relationships with industry partners.

Customized Training Programs: Customize Training Programs to precisely align with the unique requirements of clients. Comprehend their industry dynamics, challenges, and objectives, ensuring the delivery of tailored and pertinent content that directly addresses their specific needs.

Technology Integration: Utilize technology to elevate the effectiveness of training delivery. This may encompass leveraging e-learning platforms, virtual reality, and other cutting-edge tools to create an interactive and engaging learning experience.

Continuous Assessment and Feedback: Integrate regular assessments (pre and post) and feedback mechanisms to gauge the effectiveness of our training initiatives. This approach supports continuous refinement and improvement, guaranteeing the ongoing enhancement of our training programs.

Experienced Instructors: We ensure that sessions or workshops are led by instructors who possess extensive knowledge and experience. Their expertise not only adds credibility but also enriches the quality of our training programs.

TARGET AUDIENCE

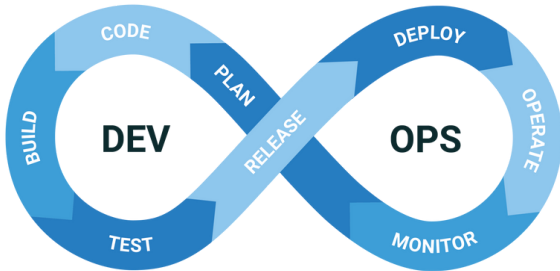

Thinknyx Technologies serves a diverse clientele across the IT landscape, catering to a wide range of businesses from startups to large enterprises. Our core audience includes organizations seeking expert IT training and consulting services. We specialize in delivering customized solutions that elevate efficiency, bolster security, and drive innovation within their technological ecosystems.

Additionally, we actively engage with professionals and organizations looking to enhance the skills of their workforce in the area of soft skills and behavioural.

This encompasses individuals seeking advanced skills, as well as corporate entities aiming to equip their teams with the latest industry knowledge. At Thinknyx, our commitment is to be the trusted partner for businesses and individuals navigating the dynamic world of technology. We provide strategic guidance and empower them with the skills necessary to thrive in the digital era.

DISTINGUISHING FACTORS (DF): WHAT SETS US APART!

END-TO-END LEARNING DELIVERY

Thinknyx distinguishes itself through its all-encompassing L&D support, spanning from the initial Request for Proposal (RFP) phase to ongoing post-implementation assistance. Additionally, we aid clients in setting up their support teams, ensuring continuous support even in our physical absence.

THINKNYX DEVOPS CERTIFICATION

We offer our certification programs in the area of DevOps, SRE, Generative AI and many more. These certifications are live and at par with other Original Equipment Manufacturers (OEMs). To date, more than 250,000 individuals have become Thinknyx certified, underscoring the high quality and value of our certifications.

IN-HOUSE EXPERT TRAINERS

Our team includes over 25+ in-house trainers who actively engage in implementation work. Their real-time knowledge and hands-on experience add immense value to our training programs.

PRE-TRAINING RESOURCES

Before the commencement of training, we provide participants with preparatory materials, including Thinknyx's YouTube channel learning videos and other resources, to equip them for the training and enhance their overall learning experience.

GAMIFIED PRE AND POST CHECKS

In our training programs, we integrate gamification elements through pre-training and post-training assessments. This interactive approach is designed to elevate participant engagement and improve knowledge retention.

DAILY STATUS REPORTS

We provide daily status reports to all stakeholders. This allows us to gather feedback promptly and make any necessary adjustments to ensure the training is on track and aligns with client expectations.
